jUSTInter.net

jUSTInter.net

jUSTImagine.....shorter lines, fewer phone calls, applications typed and already in your computer system **before** you have to work with them, money going directly to your bank account and receipts going directly to your customers without you ever having to touch them. e-Commerce, the facilitation of transactions between your city, county, municipality, town or village and the people you interact with (both up and down the line) is a reality today. Many of **USTI's** applications are currently web-enabled and more are on the way.

First, **you need a Web Site.** Without it, there's no place for all these exciting things to take place. That's why **USTI** has developed **jUSTInter.net.** **jUSTInter.net** is the foundation upon which all these opportunities offer more convenience and cost savings to your constituents and customers, while at the same time increasing your productivity and reducing costs, rests. Just like with our **asyst** software family, the **jUSTInter.net** family of products and services will grow over time. Below is what we are currently offering:

jUSTInter.net:Hometown

A Web Site Hosting Service in which **USTI** includes a set of tools that enable anyone in your office to add and change your web pages without any programming knowledge. Included with Hometown is one e-mail address that you can use for your Webmaster.

jUSTInter.net:Hometown is only \$14.95/\$24.95 CDN per month with a one time \$295/\$450 CDN set up fee. The setup fee by **USTI** is up to 4 web pages. The 4 pages would be a Home with a Calendar of Events, Department Listing, About your organization and a Pay My Bills Button.

The service includes the use of one of our domain names (CityGovt.org, CountyGovt.org, Municipal-Govt.org, TownGovt.org or VillageGovt.org), but we can register a custom domain name for you for only \$25/\$40CDN per year.

As **USTI** continues to Web-enable its applications, many of the transactions you conduct over the telephone and in person will be conducted over the Internet, at times and places much more convenient to your constituents and at a lower cost to you. So get ready for the coming Communication Revolution. **Call about jUSTInter.net today!**
